## SUMMARY

Software Engineering student with knowledge in programming languages, databases, networking, and web development. I am currently seeking opportunities to enhance my skills in a challenging and dynamic environment, with the goal of applying them effectively and innovatively.

---

## EDUCATION

- Software Engineering – Estácio (2023 – Ongoing)
- Technical Program in Administration – Escola Técnica de Ceilândia (2024)
- Technical Program in Computer Science – Escola Técnica de Ceilândia (2023)
- Systems and Applications Development – Praxis (2022)
- Microcomputer Operator – Escola Técnica de Ceilândia (2022)
- User Technical Support – Escola Técnica de Ceilândia (2022)
- Maintenance Assistant – SENAI (2022)

## PROFESSIONAL EXPERIENCE

### Full-Stack Developer, imoGo, 2024 - Present

Currently, I work at imoGo developing and improving applications using React Native and Python. I have participated in the creation and maintenance of systems, as well as in the implementation of automated tests and the identification of bugs to ensure software quality. I am also responsible for providing technical support and collaborating directly with clients.

### Telecommunications Technician, NW Telecom, 2022 - 2023

I worked as part of the technical department team, where I had the opportunity to learn and apply my knowledge in computer networks. During this period, I assisted in the creation and maintenance of websites and servers, and was also responsible for providing technical support to clients.

### Web Developer, T7 Themes, 2020 - 2023

I worked as a Junior Developer, focusing primarily on web development. During this period, I had the opportunity to learn and deepen my knowledge in essential languages such as HTML, CSS, and JavaScript, while also exploring Python, especially with FastAPI and Flask frameworks.

### Internship in Assembly and Configuration, Pesquisa.com, 2018

I performed maintenance, assembly, and configuration of desktop computers and laptops.

## **TECHNICAL SKILLS**

- Programming Languages: PHP, Python, JavaScript, TypeScript, Kotlin, C++
- Databases: MySQL, MongoDB, PostgreSQL, sqlite
- Development: Vue.js, Next.js, React.js, Astro.js, Flask, FastAPI, React Native, Docker, Git
- Operating Systems: Proxmox, Windows Server, Ubuntu Server, Debian, TrueNAS
- Cloud: AWS, Vercel, Netlify, Google Cloud, Cpanel
- Computer Networks: Mikrotik, UniFi, Cisco, Vsol, TP-Link

## **LANGUAGES**

- English
- Portuguese (Native)
